

THE PRESENTATION TITLE

A nice little subtitle

Thomas M Griffiths

School of Chemistry

Typography

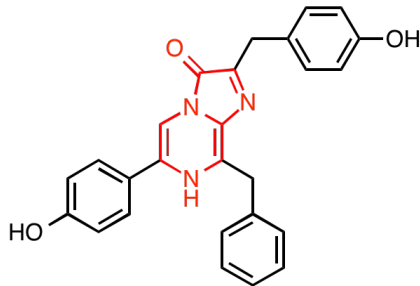

The theme provides sensible defaults to
`\emph{emphasize} text, \alert{accent} parts`
or show `\textbf{bold}` results.

becomes

The theme provides sensible defaults to *emphasize* text, **accent** parts or show **bold** results.

Columns, Lists and Images

1. Imidazopyrazinone backbone (in red).
2. Most common substrate in **marine bioluminescence**.
3. Proposed antioxidant capabilities.
4. Unknown uptake or synthetic pathway in nature.
5. $y = mx + b$ is some example mathematics.

Blocks are Used for Emphasis in Beamer

Anything can go in a block.

- ▶ Bullet points.
- ▶ For demonstration,
- ▶ or to summarise something.

This is an Alert Block

Alert blocks are usually used for some key point to be highlighted in a talk. An chemical reaction for example: $\text{CH}_4 + 2 \text{O}_2 \longrightarrow 2 \text{H}_2\text{O} + \text{CO}_2$

This is an Example Block

The example block is usually used for examples. Here I find the solutions to a quadratic equation.

$$2x^2 + 2x - 4 = 0 \quad (1)$$

$$x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a} \quad (2)$$

$$x = -2, 1 \quad (3)$$
